GOAL

Try to practice and learn practical experience to improve and perfect my skills, develop myself and contribute more to the company. My goal is to become a full-stack developer.

PROJECT

- **E-learning Website (Admin Page)**
  - Technology: Next.js, TypeScript, MUI, Vuexy.
  - Project: Internship at SGOD company
  - I developed the front-end for the Admin interface of an e-learning platform. The platform is designed for managing students, teachers, multiple-choice tests, essays, and online exams.
  - Project link: https://github.com/Lenal-P/Sgod-Admin
- **VocabTutorAI (Admin Page)**
  - Technology: TypeScript, Next.js, Firebase, MUI
  - I built the front-end for the admin dashboard, enabling functionalities like login, registration, and management of collections, vocabularies, AI characters, and users (Add, Edit, Delete).
  - Project link: https://github.com/lehuubao1810/VocabTutorAI
  - Live site: https://vocabtutor.vercel.app
- **TopTop (TikTok Clone)**
  - Technology: TypeScript, Next.js, NestJS, MongoDB, Ant Design, Docker
  - I am developing a TikTok clone website named TopTop. This project involves custom design and implementation for both the front-end and back-end. The platform aims to replicate the core functionalities of TikTok while adding unique features that I have tailored myself.
